ritikdubey111@gmail.com

EDUCATION

NIT KARNATAKA
MTech in Computer science - Information Security
Suratkal, Mangalore
Cum. GPA: 6.36

BTech in Computer Science
Jhansi, UP
Bundelkhand Institute of engg and Tech
67.80

COURSEWORK

POSTGRADUATE
Network Security
Web Application Security
Number System And Cryptography
Data Science

GRADUATE
Computer Network
Operating Systems
Data Structures and Algorithm
Computer Organization

SKILLS

PROGRAMMING
- C • C++
- Python • LATEX
Familiar:
HTML • PHP • MySQL

INTEREST
- Linux and Programming • Network Security • IOT • Penetration Testing

EXTRA ACADEMIC ACTIVITY

- Volunteer at the 1st IEEE international conference in Mangalore sub section.
- Conducted various Blood Donation Camps

PROJECTS

W4VF | Web Application Vulnerability Finder
Jan 2015 – Apr 2015 | (Using Python)
- Github:// **W4VF**
- Console Based Application, . It is an automated tool that scans the web applications to look for known vulnerabilities such as XSS, SQLI and LFI .

BABY | MITM Based Exploitation Framework
Oct 2016 – Nov 2016 | NITK | (Using Python Language)
- Github:// **BABY**
- Exploitation Framework That contains various MITM Based Exploits(ARPpoisoner,arpdeauth,sslstrip etc).

SOCIALN | Enhanced Sentiment Learning Using Twitter Hashtags and Smileys
Feb 2017 – Apr 2017 | NITK | (Using R)
- Github:// **SocialN**
- I Compared various Mobile carrier Company with the help of tweets and Did Metasploit vulnerability analysis with the help of hash tags .

FIXER | Protection of User privacy by Preventing Google from Hijacking User search result
Mar 2017 – Apr 2017 | NITK | (Using JavaScript)
- Github:// **Fixer**
- A chrome add-on for Protection of User Privacy by Preventing Google from Hijacking User Search Result.

RESEARCH

METASPLOIT | Network Security Research
Jan 2017-Apr 2017 | NITK | (Using Python Language)
- I Started to research on a Open source Project Metasploit(Exploitation Framework) during my graduation and Exploited some Windows System and Demonstrated on my Youtube channel. And wrote One exploit for Microsoft office at NITK.
- Github:// **SMBhash**

TECHNICAL ACHIEVEMENT

DOM BASED XSS | Target- https://www.123contactform.com/
Dec 2014
- Acknowledged them about their Bug and got Hall of Fame.

REFLECTED XSS | Target- http://bietjhs.ac.in/
Apr 2014
- Penetrated my graduation college website and acknowledged them.

CYBERLOVE'S SECURITY(CONTAINS 14K LIKES) | https://www.facebook.com/TijiNostalgia/
2013-Till Date
- Admin and Founder at Cyberlove's Security, which is a group of Information Technology Experts involved in learning, teaching and serving for the betterment of digital world to make people aware of cyber crimes and security.
